

FUND UPDATE FOR QUARTER ENDING 30 June 2020

This Fund Update was first made publicly available on 28th July 2020

What is the purpose of this update?

This document tells you how AmanahNZ has performed and what fees were charged. This document will help you to compare the fund with other funds. AmanahNZ KiwiSaver Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

AmanahNZ is a US dollar denominated managed investment scheme that invests in up to fifty (50) equities listed on approved stock exchanges (NYSE, NYSE MKT LLC or NASDAQ), or cash (US dollars). All investments must comply with the Ethical Mandate of AmanahNZ.

The principal objective of AmanahNZ is to provide an annual return to investors over the long-term, while complying with the Ethical Mandate.

As Manager, our aim is to protect the value for all investors in times of volatility, while maximizing gains in times of growth.

Total value of the fund	\$15,913,072.88
Number of investors in the fund	76
The date the fund started	01 September 2013

What are the risks of investing?

Risk indicator for AmanahNZ -

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.sorted.org.nz>. Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past five years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

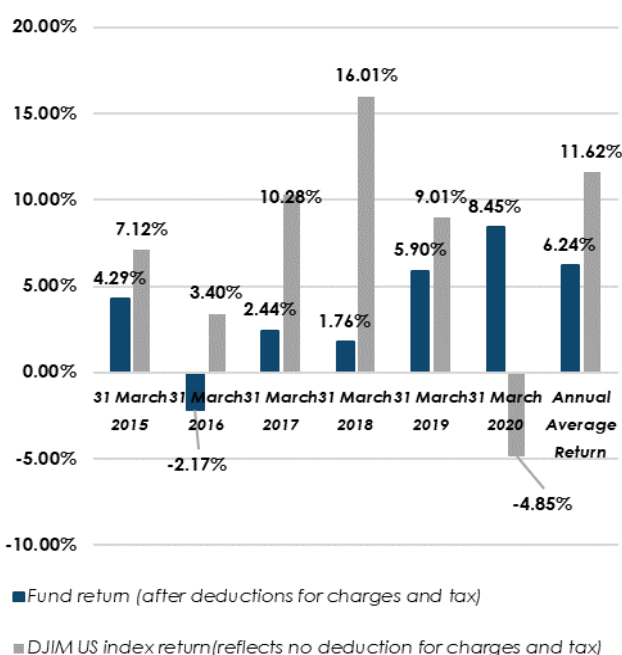

How has the fund performed?

	Past Year
Annual return <i>(after deductions for charges and tax)</i>	+ 18.02%
Annual return <i>(after deductions for charges but before tax)</i>	+ 18.35%
DJIM US index annual return <i>(reflects no deduction for charges and tax)</i>	+ 14.83%

While the Manager reviews its performance relative to major market indices, it does not consider there to be an absolute benchmark index for comparative purpose due to the unique Ethical Mandate of the fund.

Additional information about the benchmark index is available in the SIPO on the register at <http://www.business.govt.nz/disclose>

Annual return graph

This shows the return after fund charges and tax for each complete year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2020.

Important: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in AmanahNZ are charged fund charges. In the year to 31 March 2019, these were:

	% of net asset value
Total fund charges	1.83%
<i>Which are made up of:</i>	
Total management and administration charges	1.46%
<i>Including:</i>	
Manager's basic fee	1.46%
Other management and administration charges*	0.22%
Total performance-based fees*	0.14%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for AmanahNZ on the offer register at <http://www.business.govt.nz/disclose> for more information about those fees.

*The performance-based fees and other management and administration charges are estimates, based on historical costs. Please refer to note 1 at the end of this Fund Update for more information on how fees are charged.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Imran had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the period, Imran made a profit after fund charges were deducted of \$1,835.00. (that is 18.35% of his initial \$10,000). Imran did not pay any other charges. This gives Imran a total return of \$1,835.00 for the year.

What does the fund invest in?

Actual investment mix

Further information

You can also obtain this information, the PDS for AmanahNZ, and some additional information from the offer register at <http://www.business.govt.nz/disclose> (search for AmanahNZ).

Notes

1. As required by the Financial Markets Conduct Regulations, the fund fees shown in this statement are based on the average month end net asset value of the fund. This is different to how the fund's fees are charged. The fund charges a management fee of 1.25% per annum, and other estimated fees and costs totaling 0.40% per annum which are calculated and accrued as a percentage of the gross net asset value of the fund on each valuation day.

Investors may be charged a performance fee, but this will not be charged where AmanahNZ does not meet the performance fee requirements. The other management and administration charges cover the general management of AmanahNZ e.g. Supervisor fees and the outsourced fund administration functions of unit pricing, investment accounting, registry and custody, legal, and audit fees, and costs required to comply with AmanahNZ's Ethical Mandate and relevant legislation. These charges are an estimate, as the amount of these expenses cannot be determined until they are incurred and will vary from time to time. More information on fees and charges is outlined in the AmanahNZ PDS, available from the offer register at <http://www.business.govt.nz/disclose> (search for AmanahNZ).
