To help you clarify your own attitude to risk, you can seek advice or work out your risk at <https://www.sorted.org.nz/guides/kiwisaver-which-fund-suits>

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past five years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.
