What are the risks of investing?

Risk indicator for AE Investor -

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://www.sorted.org.nz>. Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past five years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

Notes

1. As required by the Financial Markets Conduct Regulations, the fund fees shown in this statement are based on the average month end net asset value of the fund. This is different to how the fund's fees are charged. The fund charges a management fee of 1.25% per annum and expenses which are calculated at the end of February/April/July and October and accrued.

Investors may be charged a performance fee, but this will not be charged where AE Investor does not meet the performance fee requirements. The other management and administration charges cover the general management of AE Investor.

e.g. Supervisor fees and the outsourced fund administration functions of unit pricing, investment accounting, registry, custody, legal, and audit fees, and costs required to comply with AE Investor's Ethical Mandate and relevant legislation. These charges are an estimate, as the amount of these expenses cannot be determined, until they are incurred and will vary from time to time. More information on fees and charges is outlined in the AE Investor PDS, available from the offer register at <http://www.business.govt.nz/disclose> (search for AE Investor).

2. The after-tax return is higher than the pre-tax return as a result of volatile tax obligations attributed to the investments during the year and over 5 years. The impact of tax credits this way is uncommon and should not be expected.
3. On 24.2.2023, the Product Disclosure Statement (PDS) for AE Investor was amended to include DJIM Total Price index as advised by FMA/Supervisor.
4. On 23.3.2023, James Roberts, was appointed as an ESG Consultant to AE's Investment Committee.
