

AE KIWISAVER PLAN

FUND UPDATE FOR THE QUARTER ENDING 30 June 2024

This Fund Update was first made publicly available on 26th July 2024.

What is the purpose of this update?

This document tells you how the AE KiwiSaver Plan has performed and what fees were charged. This document will help you to compare the fund with other funds. Always-Ethical Limited (formerly known as Amanah Trust Management (NZ) Limited) prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

AE KiwiSaver Plan may only hold investments that comply with its Strict Ethical Mandate. AE KiwiSaver Plan is approved to invest in AE Investor, an international equities fund that may also hold cash either in NZ dollars or US dollars and may also hold itself, cash in NZ dollars.

AE KiwiSaver Plan's investment objective is to provide an ethical return to investors over the long-term, while strictly complying with the Ethical Mandate.

Total value of the fund (NZD)	\$77,419,305
Number of investors in the fund	3,161
The date the fund started	25 February 2014

What are the risks of investing?

Risk indicator for AE KiwiSaver Plan -

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk at: <https://www.sorted.org.nz>

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past five years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?¹

	Average over past 5 years	Past Year
Annual return <i>(after deductions for charges and tax)</i>	+11.81%	+5.95%
Annual return <i>(after deductions for charges but before tax)</i>	+11.59%	+5.59%
DJIM US index (Total Return) annual return <i>(reflects no deduction for charges and tax)</i>	+16.79%	+25.87%

While the Manager reviews its performance relative to major market indices, it does not consider there to be an absolute benchmark index for comparative purpose due to the unique Ethical Mandate of the AE KiwiSaver Plan.

Additional information about the benchmark index is available in the SIPO on the register at [Disclose Register \(companiesoffice.govt.nz\)](https://disclose.register.companiesoffice.govt.nz)

Annual return graph

This shows the return after fund charges and tax for each complete year ending 31 March since the fund started. The last bar shows the average annual return since the fund started up to 30 June 2024.

Important: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the AE KiwiSaver Plan are charged fund charges. In the year to 31 March 2024, these were:

	% of net asset value
Total fund charges	3.44%
<i>Which are made up of:</i>	
Total management and administration charges	3.44%
<i>Including:</i>	
Manager's basic fee	1.39%
Other management and administration charges	2.05%
Total performance-based fees	0.00%
Other charges	\$ amount per investor
Membership fees	\$32.40

Example of how this applies to an investor.

Small differences in fees and charges can have a big impact on your investment over the long term.

Sam had \$10,000 in the fund at the start of the year and didn't make any further contributions. At the end of the year, Sam made a gain after fund charges were deducted but before tax of \$559.10 (that is 5.59% of his initial \$10,000). Sam also paid \$32.40 in membership fees. This gives Sam a total gain after fund charges and tax of \$562.60 for the year.

Small differences in fees and charges can have a big impact on your investment over the long term.

Investors may also be charged individual action fees for actions or decisions (Note: There are no exit or entry fees). See the PDS for AE KiwiSaver Plan on the offer register at [Disclose Register \(companiesoffice.govt.nz\)](https://disclose-register.companiesoffice.govt.nz) for more information about those fees.

Further information

You can also obtain this information, the PDS for AE KiwiSaver Plan, and some additional information from the offer register at [Disclose Register \(companiesoffice.govt.nz\)](https://discloseregister.companiesoffice.govt.nz) (search for AE KiwiSaver Plan).

Notes

1. As required by the Financial Markets Conduct Regulations, the fund fees shown in this statement are based on the average month-end net asset value of the fund. This is different to how the fund's fees are charged. The fund charges a management fee of 1.39% per annum and expenses which are calculated at the end of February/April/July and October and accrued.

The other management and administration charges cover the general management of AE KiwiSaver Plan:

e.g. Supervisor fees and the outsourced fund administration functions of unit pricing, investment accounting, registry, custody, legal, and audit fees, and costs required to comply with AE KiwiSaver Plan's Strict Ethical Mandate and relevant legislation. These charges are an estimate, as the amount of these expenses cannot be determined, until they are incurred and will vary from time to time. More information on fees and charges is outlined in the AE KiwiSaver Plan's PDS, available from the offer register at [Disclose Register \(companiesoffice.govt.nz\)](https://discloseregister.companiesoffice.govt.nz) (search for AE KiwiSaver Plan).

2. On 25.6.24 AE filed on Disclose an amended AE KiwiSaver Plan, Product Disclosure Statement (PDS).
3. The after-tax return is sometimes higher than the pre-tax return, this is a result of volatile tax obligations attributed to the investments during the year and over 5 years. The impact of tax credits this way is uncommon and should not be expected.
